DAVID FOX-PITT MBE / LONG BIO

David has been enthusing and inspiring people for over thirty years. As the Founder of **WildFox Events Ltd** he's not only been creating ambitious, world-renowned adventure challenges for over twenty years raising over £40 million for charity but he's been the energy behind scores of micro adventures and local community projects in Scotland as well as further afield.

He initially struggled as a school leaver to find direction so he is particularly proud to be an advocate for youth projects supporting young people who lack confidence and direction.

David is passionate about motivating people to challenge themselves to find their unique life purpose and to live fulfilled, positive lives. His own experiences include many endurance challenges in wilderness locations which he often uses to illustrate his talks. WFE has been built on encouraging people to dig deep and participate in such events but he equally accepts that every individual has their own motivations, objectives and challenges.

David is acutely aware that without adequate support and encouragement young people (as well as many older ones too), especially those from challenging backgrounds or with physical or mental health issues, are often denied the chance to develop their full potential and grow their self confidence.

He aims to make a difference by engaging with society on an individual, national and global level through encouragement and **positiverosity** (David's word for positive attitude and generosity).

David is also campaigning for us all to disconnect from digital and get some outside time every day to reconnect with nature, our creative thought and each other. He sees the need for us to prioritise being present in the 'here and now' which is so often disrupted by our digital lives. Find out more about this at **www.wildtimeoffline**.

MISSION

David's mission is to inspire and empower individuals and organisations to embrace each day and each challenge with 'Positiverosity' and a sense of adventure encouraging us to make it our business to matter..

SIGNATURE TALKS & WORKSHOPS

IT'S YOUR FUTURE OWN IT

Remember what it was like being a teenager? David does. He communicates his own struggles to find direction and self belief in a way that gives inspiration and encouragement to young people through fun, self-deprecating stories of adventure and facing failure. His energy leaves audiences uplifted and confident, ready to grasp life and find purpose.

WILDTIME OFFLINE

When did you last go for a walk without your phone? In his talk, Wildtime Offline David takes a thought provoking look at the balance between our digital worlds and our natural worlds. He sees the need for us all to find *intentional* space to be meaningfully present with nature, with ourselves and with those around us - for the sake of our relationships, our own mental health and indeed society as a whole.

POSITIVEROSITY

Are you in need of a boost of positivity and generosity? This talk is based around David's book, "Positiverosity, 7 Golden Principles" which uses David's own adventures and experiences in experiences in business and the Territorial Army (Parachute Regiment and SAS) to graphically to graphically illustrate some fundamental truths about living life with direction in full throttle. He seeks to encourage audiences to see the best in every situation and reflect on their own lives to inspire them to make dreams reality.

PLEASE NOTE: DAVID'S TALKS ARE TAILORED TO THE INDIVIDUAL AUDIENCE

TESTIMONIALS

'David is a bundle of positive energy whose main aim in life seems to be concocting ever more challenging ways for people to suffer, and in doing so, inspire themselves out of their comfort zone and along the road to personal improvement and self-belief.'

**Rob Wainwright,
Former Captain of The Scottish Rugby Team**

'David's informative and energetic speech left our colleagues inspired to lead not only more positive lives, but healthier ones too, both in the workplace and personally. David's fascinating story motivated us all to look at what we can do to help others and has already inspired our team to begin a walking challenge for charity'

**Katherine Garrett-Cox, CEO,
Gulf International Bank UK**

'Our Chinese guests found David's positive energy and enthusiasm infectious. He has the ability to reach out and communicate across cultural divides and to inspire people to step out of their comfort zones. This included trying Scottish dancing, which we all threw ourselves into with reckless abandon!'

**Li Siao Fou-Menhuin,
Founder, Culture Trek**
